Dear Mother.

We went to tea with D<sup>r</sup> Abbas last Sunday & had a very nice time. he has a very large garden & showed us all his fruit trees, he has oranges. mandarins figs, plumbs<sup>sic</sup>. peaches nectarines, pears custard apples. grape vines, & several that I do not know the names of.

His wife had cooked cakes specially for us herself, & of course we had to eat large quantities & we saw the new little daughter, a pretty little girl with a mop of curls. she is 8 months old. the little boy of a year & a half is running about not <w> & beginning to talk a little

Professor Breasted, he is staying at Chicago House but we last heard that he had had flu, so he may feel our camp is too remote. we also hear Sir R Mond is out & may descend upon us any moment. he came to Egypt to help show the King of Italy round. we rather think that the poor King was fed up with so much attention, & was longing to look at things on his own

Nannie is in a great state of anxiety, as Eva is expected to produce a second infant at any moment now. she is all the time looking for a Telegram we shall be glad when the wait is over

Our camel man is getting on very well & we hope will be out of hospital after a week.

I showed the picture of the Egyptian school to Sheikh Sarbit & he was very interested to hear that it had come out of an English magazine.

Amice joins me in lots of love to you both.

Your affectionate  
daughter  
Myrtle.
