Dear Mother -

I am sending you some nice doggy pictures this time. I hope you will admire our handsome Wip-wat with his harness. His pictures make him look smaller than he really is.

My Coptic book arrived today, thanks so much for sending it.

We have a small child with a burnt foot to attend to now. It was getting on so nicely, new flesh forming, & then the stupid mother took the bandage off & let it crawl about in all the dirt, now it's septic & in an awful mess, we'd been so careful to make sure the baby couldn't kick the covering off, we used to put a bit of old stocking over the bandage & tie it round the leg.

The insurance people will pay the cost of the repair to poor Joey's back axle, but alas. the part is hard to procure owing to the fire at the Jowett works. It has so

 delayed all their export orders that the garage
 in Cairo is still waiting^{for} the spare parts to the
 1930 model. There is just a chance that the
 part could be welded as a temporary measure
 so Amice is writing to Nag Hamardi to see if
 an engineer could come over & advise; all
 these affairs do take up ones spare time.

One day last week Amice got Sardic
 to write a letter in Arabic to the rug merchant
 in Cairo. Sardic asked to have the man's
 clothes described to him so as to know how to
 address him in the letter, it seems if he wears
 European clothes he has to be called "Effendi"
 but if he wears a galabia the correct form of
 address is "Sheikh" it amused us very much.

Amice is enclosing a letter for
 Father.

Lots of love to you both
 your affectionate Myrtle.
