

Arabah.
Nov. 14th [1935]

Dear Mother.

Would you get me ~~fo~~ six pencils from "Dukes" in ~~in~~<38> Queens Road. I have written the order for them on a separate piece of paper. I think you could send them letter post, it would not matter if they came two or three at a time I dont^{sic} expect Dukes will have as many as six of all one shade so in that case it would be best to send what they have, & the others later when they have got them (they always take a long time getting things) I have two with me to go on with

I thought several shades to try,
as I could not tell which colour
would be most useful so I have
some to go on with.

Should you be sending in 2 or 3
separate letters try to avoid
the Christmas mail as things
are apt to go astray then

Amice has arrived rather
earlier than she expected.
The Dr would not cauterise
her throat until all the spots
had gone & he thought that
might ^{take} some time, & all
the treatment necessary was
to paint the throat night &
morning she did not want
to waste all that time in Cairo,
so is doing the painting here
& will go down to Cairo again

I brought several shades to try,
as I could not tell which colour
would be most useful so I have
some to go on with.

treatment necessary was
to paint the throat night &
morning she did not want
to waste all that time in Cairo,
so is doing the painting here
& will go down to Cairo again

later on.

We had a visit from the Coptic Priest to-day. he was very interested to hear that I had been in Jerusalem, I am now busy writing an account of my visit during my arabic^{sic} lessons. I get very tied up with the description of the architectural details

Amice has had a letter from M^r Last. the Hon Sec of the E.E.S which he has finished up with a latin^{sic} Quotation much to her indignation as she cannot make it out so she is going to go one better, I have written out two proverbs in Arabic which she will copy at the end of her answer, they read,
 "There is no darkness like ignorance therefore do not cast your pearls before swine -"

of course Last cannot read
Arabic, but he can get in
touch with some one who
can.

Glad to hear such satisfactory
news about May, I do hope
she will settle down. If she
does needle work & understands
a sewing machine, why not let
her use ours when she has a
big bit of needle work on hand.
I know you do not use it much
in the winter, & it would do it
good to be kept in working order

Each season I seem to make
some improvement in my room,
this time I have fixed a shelf
in the corner over my washstand
& there is an enamel plate on
it for sponges & a hook from which

my face cloth hangs, & room for
nail brush etc so everything
is handy & tidy.

Amice joins me in
sending lots of love to you both.
Your affectionate
daughter
Myrtle.
