

Arabah.  
Feb 14<sup>th</sup> 1933.

Dear Mother.

Our guest from Luxor was unable to come to-day, so we are going off on a picnic lunch to show Lavers (the architect) our famous sand-slope. He has been very busy making such a fine plan of the temple, & is going to do some sectional drawings to show the roofs etc. We all like him very much. he was a little shy & restrained at first but now he has got to know us he is very jolly -

We are expecting the King of Italy & his family early in March. there will be a great fuss here

Amice & I are practicing our bows.  
it having been decided that curtseys  
are not suitable to our costumes.

M<sup>rs</sup> Davis is coming on March 1<sup>st</sup> for  
about 10 days to do a painting  
in the Rameses Temple so she  
will be here for all the excitement.  
I do not expect she will be at all  
pleased as it will delay the work  
& she is always anxious to get  
back to her home as she does  
not think M<sup>r</sup> Davis looks after  
himself properly while she  
is away.

Mahmud brought his  
little daughter this morning to  
show us how well she can  
dance, the men provided the  
music by clapping their hands.  
the dancing consisted chiefly of tummy

 wagging & body movements. they do not dance with their feet as we do. of course the little girl was very proud to perform, but very now & then got overcome with shyness & ran & hid in the folds of her father's galabia.

The weather is beginning to get warm again we may get the heat early this year

I have sent off the cheque for my Income Tax this week. It does seem a lump, nearly a month's earnings.

Thank father very much for getting the visiting cards printed for me. the ordinary ones will do quite well for what I require.

Love to you both.  
 Your affectionate daughter  
 Myrtle.
