Dear Mother

Amice & I have just returned from a visit to the Oultons at Sohag. we went in Joey after we finished work on Monday arriving in time to change for dinner, it was so nice to see them again. Charles looks quite himself again, & Betty is being very fierce & making him take great care of himself. she hustles him off to bed like a small boy, we both had our breakfasts in bed Tuesday morning & then sat out in the garden, then Betty took us round to see Marge & the son she is a fine boy & very good, did'nt make a sound all the time we were there, in spite of having just cut a tooth, Marge's mother is staying with her until January, do you remember her at the wedding? she was the charming white haired old lady who came & talked to you while I was parking the car in the field.

We did not see Jenks as he was at the school
& we were returning ^{to Betty's} for lunch.

We left ^{Sohag} after tea & arrived back in camp
about half past six, in nice time to have our
baths before supper.

Now Amice is off to Luxor to do some enlarging
at Chicago House, this should be the last
of the photographic work, I expect she will
be away about three days

The Arabic Grammar arrived safely to-day,
thank you very much for sending it.

We are now in Ramadan & the men are
very sleepy during the day time as they
spend so much of the night in eating, it
is a silly way of fasting isn't it. Amice's
aunt wrote a very apt rhyme about it.

"Oh Ramadan, Oh Ramadan, the Holy Fast I keep,
I feast all night, & in the day I lay me down to sleep."

We have a lamp that hangs on the wall in
the Terresina & this evening a large gecko (lizard
came in along the wall & ran round it catching

all the moths that were attracted by the light, he did have a feed, one very large fat moth was quite a mouthfull^{sic} for him.

Our dog seems very well, he does not seem any the worse for the horrid meal he had that I told you about in my last letter, the other three dogs are fine & watch for us very eagerly every day, they must miss us on market days when we do not go to the Temple.

We hear the sparrows chirping merrily while we work but we do not see many in the big hall where we are now, as that is the haunt of owls & hawks, & small birds do not make their nests there, sometimes we see a big white owl come sailing through like a shadow^{sic} but they mostly stay high up under the stone roof beams during the day light most afternoons they have a little conversation among themselves, usually about three o'clock, the weather still continues fairly warm, it is

round about 90 in the shade most days, though
it was much hotter when I first arrived.
there are still a few mosquitoes about, we have
not dared to put our nets away yet. they do
not trouble us much in the day time fortunat

Amice joins me in much love to
you both, also to Pat.

Lots of love from
your affectionate daughter
Myrtle.
