Arabah 128<sup>1</sup>  
March 27<sup>th</sup> 1931

Dear Mother.

I am so glad you enjoyed looking at the photographs, there were some very good ones in that lot.

I have been using some of my new brushes to-day for the first time, they work splendidly.

Today we went to Baliana to have tea with D<sup>r</sup> Abbas. (the Egyptian doctor I took Mahomed with the injured hand to last year). He has a fine new house & a very pretty little wife, they have only been married six months, they gave us a very nice tea with lots of fancy cakes & biscuits all made by M<sup>rs</sup> Abbas, she has been educated in a convent, so has learnt to make lots of things.

The man with the burnt leg is nearly well, the new flesh has formed on even the worst parts & it has only taken one week. we told D<sup>r</sup> Abbas about it, he had not heard of this new treatment & was very surprised, he said that

a burn such as we ~~would~~ described would take a month at least to heal with the usual treatment. He is going to try the tannic acid himself.

Our baby chicks are getting on splendidly we sometimes give them jumping exercise by holding a piece of bread just out of reach so that they have to give a very big hop to peck it. They have great games with it, & seem to enjoy the fun. They are developing wings & tails, & the cocks are sprouting combs.

There does not seem very much news to tell you in this letter, we are both hard at work again trying to get a certain amount finished before it gets too hot, we expect to be here until early in May.

Lots of love  
your affectionate daughter  
Myrtle.

P.S. The lettuces from our seeds are doing splendidly, we are so glad to be able to have lots of salads now
