Dear Mother.

Amice & I are contemplating a trip in Joey to the Red Sea again. this time by another route, we expect to leave Friday, & be away about 6 days so it is probable that I may miss the next English mail so do not be surprised if you do not get your usual letter.

We have had a visitor today. a friend of Eve Samuels. she left by the night train. I have been showing her round the sights as Amice was very busy so had no opportunity<sup>sic</sup> of writing, so I am scribbling this in bed, it is a little past eleven, it is nice to have visitors but they do seem to absorb all one's

spare time when they come on Tuesdays.  
 & have to be seen off on the night train  
 We had a letter from D<sup>r</sup> Gardiner, there  
 is a probability that the work here may  
 not continue much longer, as Rockefeller<sup>sic</sup>  
 is in financial difficulties owing to this  
 new super tax that is being levied in  
 America, D<sup>r</sup> Gardiner is now on his  
 way to New York to interview Rockefeller  
 personally

I am sure you will be pleased to  
 hear that our first cat did not come  
 to a sticky end as we feared. he has  
 gone wild & is living <sup>in</sup> a hole in the  
 wall of the ruined fortress a little way  
 from here. one of the guards saw, and  
 recognised him one evening.

We see very little of our new cat, it is

Nannie's fault as she is always shoving & driving it away, she says he is a thief. she is careless about leaving food about when he can get it, so of course he seizes the opportunity (& the food) I think she must have hit him with a stick some time for he always runs away & hides as soon as he hears any one coming, I expect in the end he will go back to the wild like cat No 1.

We are expecting Dr Junker for a day or two at the end of this month we hear Otto is getting on very well & will soon have his leg out of the plaster case we shall of course hear all about it when Dr Junker comes  
Are you going to see the Chinese Exhibition, we have seen pictures
