Dear Mother.

We have had a sand storm today, as it is market day it did not interfere with our work in the temple, we had to stay in the house with all the doors & windows closed & now everywhere is peppered with sand. Amice has gone to Cairo to have her throat seen to, I expect she will be away about a week.

I gave Wipwat a dose of medicine today, he has been looking out of sorts in spite of a good appetite, so we suspected worms. I told the men to keep him all day without food, & this evening at sunset I made him a nice parcel of a lump of meat with a Bob Martin Worm Powder concealed inside he was so hungry that he eat it all up but it was quite obvious he didn't think

Dear Mother -

We have had a sand storm to-day, as it is market day it did not interfere<sup>sic</sup> with our work in the temple, we had to stay in the house with all the doors & windows closed & now everywhere is peppered with sand.

Amice has gone to Cairo to have her throat seen to, I expect she will be away about a week.

I gave Wip-wat a dose of medicine<sup>sic</sup> to-day, he has been looking out of sorts in spite of a good appetite, so we suspected worms. I told the men to keep him all day without food, & this evening at sunset I made him a nice parcel of a lump of meat with a Bob Martin Worm Powder concealed inside he was so hungry that he eat<sup>sic</sup> it all up but it was quite obvious he did'nt<sup>sic</sup> think

much of the flavour of the meat. anyway it has all gone & we hope for the best.

I hope to finish my painting in a few days, it is the largest I have done yet & has taken five weeks. my next will be of a more modest size but I will have to curl myself up in a little box like space to get at it, we call this the dog kennel, there is room to sit in it, but not to stand & elbow room is very limited, I have arranged to do this at the coldest part of the year as it is a nice snug place out of the wind.

I have been repairing my rubber soled shoes with Rhino Sole, a solution I got in a tube at Woolworths, it is very successful, all my various purchases have come in useful one way or another

The sewing machine has been very busy. I have made the skirt with the material I bought in Girga & have made an apron with the bits over.

I have found it is very refreshing to put a few drops of Eau de Cologne on my sponge when I have my bath, you try it on your face flannel, it makes you feel so fresh & helps to take the tired feeling away. It is a little luxury one appreciates very much out here.

I had a great problem today. Trying to explain to ~~him~~ <sup>Sheikh Jed el Karim</sup> how the Dead Sea lies below the level of the Mediterranean, I managed it with the help of diagrams & he quickly grasped my meaning.

Today is the middle of Ramadan & the men have a little feast to-night. They have all been to market to buy some meat. We shall soon be thinking about Christmas. How the time does slip by.

Glad to hear Pat is getting on so well with her job, I am sure she prefers work that she can use her intelligence over than just routine business.

Lots of love to you all  
Your affectionate daughter Myrtle.
