Dear Mother.

Amice went off to Luxor Saturday. (her birthday) & I had the job of driving Joey back from the station, there was a fairly clear stretch part of the way, so I gave Sardic a driving lesson. Amice had been giving him one or two, but she fusses so that the poor man gets so nervous that he does not know what he's doing half the time, I just sit tight & only grab the steering wheel when absolutely necessary & he gets on very well, he knows what to do. it's only practice he needs now. it was rather anxious work. for in moments of emergency my arabic is apt to entirely desert me, & as you know. Joey's brake is quite out of the reach of any one except the actual driver. but happily all went well. only a few wild swerves & unseemly noises in gear changing. Later the same day I had a wire to say a friend of Mrs Davis was coming to Abydos the following day & would I show him round etc.

He turned out to be a most delightful young man, (you must tell Pat that he was remarkably good looking) he looked round the temple while I was busy doing the ceiling plans. & then at noon I took him down into the Osirion & got the men to work the mirrors so that he could see the carving in the long underground chamber. Then we went back to the house & had lunch. (stewed chicken) he had a little rest, & then I got the car & drove him over to the Ramases Temple & showed him all over that, then to the Sety temple where I left him to his own devices while I gave Sardinic another driving lesson, & fetched him in time for tea. After tea, I drove him to Baliana, saw him safely off on the Cairo train, & then had the terrifying job of driving back in the dark.

The following day I made lists of all the table ware, crockery, furnishings, linen, bedding etc also stores left over, quite a long & exhausting task. & this morning I had to drive into Baliana

again to meet Amice. She has come back with lots of fine photographs & is very tired of working all day in the dark room.

When she looked through her letters she had a great surprise, she had news from her sister to say that "Daddy" had sent her the passage money for her & her husband to come to England for a holiday & they were sailing about Easter - so of course Amice will return to England as soon as she can, & we have given up the idea of the cargo boat, as sailings are uncertain & one does not know more than a week in advance what date the boat leaves. we hope to be able to sail some day during the last week of this month.

Lots of love to you all.
Your affectionate daughter
Myrtle.
