Dear Mother.

Your letter with Old Moore's almanack arrived yesterday. we are looking up future events with much amusement. I have given Sardic the shoe pattern, he is delighted to take the order for a pair of shoes to be made for a distinguished English man. I hope the village cobbler will not try to imitate European shoes, I very definitely said they were to be exactly like Ahmud's only as long as the paper sole. but one never knows what these people will do.

We have had a very busy day, the nice people at Assiqt who put us up on our journey here came to spend the day with us, we showed them the Temple & the Oserion, then they came & had lunch at the house; in the afternoon we walked to our favourite wady to show them our famous sand slope. There was Mr & Mrs Forster & Betty the 19 years

old daughter, such a delightful girl, she did so thoroughly enjoy everything.

We also had Miss Chubb here, she arrived last night & left with the Forsters this evening.

She is on her way home, but expects to spend about two weeks in Greece on the way.

She says she thinks Pat must have been very clever to manage the office as she has done, she says that it was a great relief to her to hear they'd got someone so competent, otherwise she might have had to return before the camp closed down, which would have been very sad -

Father's wedges have got as far as Baliana. we had the customs forms this days<sup>sic</sup> mail. they are charging 2/- on this parcel. but as they come under scientific equipment we hope to claim exemption as we have a free permitt<sup>sic</sup> for all such.

Sardic is going into Baliana to see about it tomorrow & will probably bring the parcel with him

so I will be able to tell you all about them in my next letter

Amice asks me to send her very best love to Pa & Ma Broomie -

M<sup>rs</sup> Davis is very busy with her painting, it is a wonderful piece of work, the amount of detail is simply amazing. we have sly peeps now & then. we are simply longing to get on with our own colour work but dare not attempt it while she is here, as our attempts will look very feeble beside hers, we have still a lot of architectural details to finish first. We have been working on some of M<sup>r</sup> Justice's tracings, we find two long strips have been taken out of the packing case by the Customs & not put back, so have had to send for the photographs & have all the bother of re-tracing - isn't it tiresome

Lots of love to you both &  
many thanks for sending my many requests.  
(by the way I bought the expanding flowers in the street)
