

Arabah

[late (between 21 and 27) February 1931]

Dear Father.

Thank you so much for the birthday letter & the hankie. the latter has been much admired, also the black cat.

Will you do a little commission for me when you are in town next? will you go to Lechertier Barbe & get me four sable water colour brushes. I want the smallest made & one each of the next 3 sizes, either 00-0-1-2. or 0-1-2-3. I am not certain how they are numbered. While you are there you might tell them I am finding the camera lucida very useful.

I think it would be best if you posted the brushes yourself - send them "sample post" so as to avoid bother with the customs.

I think I would also like one of the smallest size miniature brushes & one of the next size. the detail we have to put in is so tiny that one needs the wee'st brushes made. & one needs some with the usual length hair & some short. the miniature are

The short ones.

I shall be all on my own the next ten days as Amice is going to Alexandria to stay with the Tatton Browns for a change & a rest. I shall take my holiday here, doing a little painting on my own & going for long camel rides

Lots of love

your affectionate daughter
Myrtle.
