At Nancy's. April 22.

Dear Mother.

I closed the camp yesterday & came to Cairo by the night train, it has been such a rush to get everything through in the heat. I went round to Cooks^{sic} this morning, they say the Strathmore is full, but can let me have a berth on the Ranchi so I have taken that, it is due Tilbury May 8th but possibly I may get off at Plymouth, & so save a day also the awful crush at the Customs

I find I must have either lost my glasses or left them in camp. would you look out the prescription Dr Smith gave me & send it to Father's spectacles man to make me another pair. same as before. I think the paper is kept in one of the partitions of your dressing table looking glass. (I have got an emergency pair with me but they are the first I ever had with ear pieces & gold rims like Father's^{sic}. & are not quite the proper focus)

I shall be able to send you another letter
from Marseilles to tell you when to expect me
I am in a hurry to get this off as I want
it to go by the Strathmore on Saturday.

Lots of love to you both
your affectionate daughter
Myrtle.
