400

Dear Mother.

This is just a hasty note to tell you that we have returned safely from the Red Sea & had a glorious adventure. I will write you a long letter all about it by the usual English mail but I want to get this off by today's post on the chance of catching an earlier mail by Italian packet so that you will not be so long without news.

I have lots of letters to write to all the kind friends & officials who gave hospitality & help on our journey, so have only time for this short note now. We had lots of adventures, no mishaps & both feel much benefited by the change.

Love to you both from us both
your affectionate daughter
Myrtle.
