

Arabah
March 27th 1934.

Dear Mother.

We are having a real hot spell now, it has set in very early this year, so we are going to start work early in the morning as it is quite pleasant then, but in the afternoon the sun comes in & reflects off the limestone walls & it becomes an oven.

Amice returned yesterday, she has brought one of Dr. Junker's assistants with her, to see if she can do the same sort of work as Little Un, she is very quiet & nice, a little older than Amice & I hope she will be able to do the job as the work is going very slowly now Amice & I are doing the coloured plates & we have

Dear Mother.

We are having a real hot spell now, it has set in very early this year, so we are going to start work early in the morning as it is quite pleasant then, but in the afternoon the sun comes in & reflects off the limestone walls & it becomes an oven.

Amice returned yesterday, she has brought one of Dr. Junker's assistants with her, to see if she can do the same sort of work as Little Un, she is very quiet & nice, a little older than Amice & I hope she will be able to do the job as the work is going very slowly now Amice & I are doing the coloured plates & we have

very little to show at the end of a season
when one picture takes a month.

We gave Hakim a bath today. his first,
he was very alarmed at first, but
after a bit he rather liked the
sensation of being rubbed & trickles
of warm water running over him.
He was a pathetic object when I lifted
him out, Amice took a snap
of him to show you what he looked
like, he was dry in ten minutes
& looked wonderful, his hair is
apricot colour near the skin with
black tips to the long hairs.

Fill-fill has returned to her own home
& her son is now in her place & doing
his duty splendidly; at the present
moment he is barking furiously at
some bedawins who are passing with
their flocks. it is a wonder my letter

is not all "bow-wow bow-wow"
Hakim has not started to take
life quite as seriously yet, but
occasionally joins in the chorus
with his tail wagging all the time.
I have written to Betty Oulton to
see if she can put me up next week.
& Amice says she can spare Sandie
& one of the Soudani guards to go
with me, so I shall have a good
body guard. I think I am beginning
to need a bit of a change. I have
now done five months steady work
with only one day a week off.
Lots of love to you & Father
and Pat.
Your affectionately daughter
Myrtle.
