Arabah.

Nov 22nd 1935.

Dear Mother.

Yesterday the Mudir of the province came to call on us, we served coffee and biscuits for him in the temple, he had with him the colonel of the Soudanese camel corps who arranges about our guard, & of course our local officer was in attendance, The Mudir has invited us all to lunch with him in Sohag next Monday so we shall go over prepared for a gigantian^{sic} feast, (Otto at least will be able to do justice to it.) We were very sorry to hear that Mr Oulton has been very ill & is still in hospital in Cairo, he has had to have an operation on the mastoid, he has been in hospital since the end of August & though he is better the D^r will not say when he will be able to leave. I had a letter from Marge. (the bride) she has asked me to go over to see her some time & probably Amice & I will stay Monday night with her.

I am so glad to hear about Pat's new house,
 is it one of those near Hamper Mill?
 I expect she & her Mother will be very busy preparing
 for the move, what an exciting time they will
 have after living in the one house for so long.
 From what you say in your letter I think May
 sounds a very suitable girl for us, & she seems
 to have enough interests of her own so that it
 will not be too dull for her.

Please thank Father for his letter
 & tell him I gave Amice his message, & she said
 "Tell Pa Broomie to clip his moustache first"

Lots of love to you both
 your affectionate daughter
 Myrtle.
