April 7<sup>th</sup> 1932

Dear Mother.

The little book has arrived in splendid time, as Amice's birthday is. The day after tomorrow, it will do splendidly, tell Father not to get a complete edition as this contains sufficient, I am also giving her an exercise book of carefully copied out Arabic verbs!!! all the ones I have worried out of Sheikh Sarbit. I have been preparing an exercise that I am going to post to his home address for correction so that the reply will come while I am here, & if I find it difficult to understand I can go to Nannie for help. I shall be very much cut off from all assistance when I get back to England.

I have finished my last painting today & tomorrow I start on the ceiling plans. Amice is doing the final photographs that Miss Holey could not finish owing to her illness. She is going to Luxor to Chicago House on Saturday for a few days to prepare

Dear Mother.

The little book has arrived in splendid time, as Amice's birthday is. The day after tomorrow, it will do splendidly, tell Father not to get a complete edition as this contains sufficient, I am also giving her an exercise<sup>sic</sup> book of carefully copied out Arabic verbs!!! all the ones I have worried out of Sheikh Sarbit. I have been preparing an exercise that I am going to post to his home address for correction so that the reply will come while I am here. & if I find it difficult to understand I can go to Nannie for help. I shall be very much cut off from all assistance when I get back to England.

I have finished my last painting to-day & tomorrow I start on the ceiling plans. Amice is doing the final photographs that Miss Holey could not finish owing to her illness. She is going to Luxor to Chicago House on Saturday for a few days to prepare

the enlargements that we shall need for the next seasons work.

We are having a real scorcher now & are in a constant state of drip - we are praying for our nice North Wind.

I think after <sup>receiving</sup> this you had better send your letters to c/o Thos Cook & Son Cairo to be called for - I expect we shall be in Cairo a few days. we have so many invitations, including lunch at the Residency -

Lady Lorraine has evidently been using us & our work as a dinner table topic for conversation for King Fouad & The Prime Minister expressed a wish to see our paintings, they had been left in Prof Newberry's care after being mounted & covered with celluloid, so when the request came Amice had to wire to him to ask him to dispatch them to the Residency. we have heard they have been very much admired & Sudkey suggested that copies ought to be hung in the Cairo Museum.

I have written to Cooks for the <sup>list of</sup> homeward bound steamers. We would rather like to come home in one of the Prince Line Cargo boats that stop at various ports in N. Africa, but they are only fortnightly & it will depend on how the dates fit. I shall probably be able to tell you more next week.

Lots of love from us both.  
Your affectionate daughter  
Myrtle.
