Dear Mother.

The house that Jack built has given us a lot of fun, I started to put it together to-day & the others all got so interested in it that they had to come & help too, I have made a table, settle, chair & rug for the downstairs room, we will furnish the upper room next market day probably. so far only Nannie has seen it, we will show it to the men when it is complete. I gave Sheikh-Jed el Karim the first two P.Cs of the Jubilee series, he was so pleased with them & he asked me to send you his greetings & thanks, I do not remember if I told you that his ass has a daughter a month old, & she trots along beside her mother & plays about on the tennis court while I am having my lesson, she is very welcome here & every one has taken her photograph, baby donkies^{sic} are so pretty, this one is a very soft grey, with fluffy ears & a Victorian fringe over her eyes & such dainty little hooves, her mother is white & looks very well cared for.

We have had two sand storms recently. we woke up this morning to find everything thick with dust & it has been blowing hard all day.

The guards dog looks for his piece of bread every day when I return from work. it has got to be quite a ceremony, I think old Mahommed sometimes invites some of his pals along to see it. of course they think we are quite mad. to feed someone else's dog is beyond their comprehension.

I am afraid something must have happened to our cat, he has been missing now for over a month. we are quite used to him going off on his various love affairs in the spring time, but he has always returned within the week. very hungry & looking the worse for wear. but never for as long as a month. so it seems as if something has happened to him. Amice & I are very sad about it as we were very fond of the shamp beastie.

Wip-wat is in splendid health, he has been much better since Hakim's departure. H. was such a greedy dog & we think he gulped his own share down & then stole Wipwats' meal as well, as Wip-wat is not greedy & eats slowly, so he

never got his full share when Hakim was alive -

he never eats more than he needs & if he has any bread
over he takes it & digs a hole in the sand & buries it
& then if he gets hungry later he goes & digs it up
again.

Lots of love to you & Father.

Your affectionate daughter
Myrtle.
