Dear Mother

I am afraid I missed sending your usual Friday letter. I wrote Christmas letters to Pat & Buffles for that mail & then it was past ten o'clock. but I thought Pat would be sure to bring hers round for you to read

the holidays, I expect they will
be back the end of the week.
in the meantime I am in charge.
Amice is going to see the doctor
while in Luxor. she has had a
troublesome cold & has worried
herself into one of her states of
nervous prostration. I hope the
change will do her good. Truda
is a very level headed sensible
sort of person & is getting on with
the photography quite well.
but the two who were to help
prepare the drawings are having
great difficulty, so far they have
only done what Amice & I could do
in three or four days & we have
spent more than that amount of
time directing them. It is very
fortunate Otto knows his job so

I am sorry you are having so much trouble with the handles hinges for the cupboards, it seems as if the job is going to hang on indefinitely.

Thanks for sending the calendars they are splendid. The bit of silk I wanted was a cutting from Father's coat. not my coat & skirt, you will find a bit in the tall boy, in the silk drawer I think, a tiny piece will do.

It is getting quite cold now, I put on my velvet dress one evening. it was very much admired & so comfortable.

I have not heard any thing more from Starkey about going to Jerusalem, I gave him

well.

 my camp address. I may hear
 later but I should not be surprised
 if nothing further happened.

Poor Erica slipped down
 the stairs from the tower room
 yesterday & twisted her ankle a
 little. Amice strapped it up
 for her to prevent her twisting
 it again accidentally. She
 says it is not painful at all
 now, but she feels she must
 be careful of it for a few days.

This evening when I was locking
 up the medicine cupboard Nannie
 came & said she had a strange
 pain in her ankle which hurt
 when she touched it, or walked
 on it, so I got her a pad soaked
 in Arnica & put a bandage
 round, I hope we will not have

an epidemic of twisted ankles.

We had a visit from Monsieur Roche from Nag Hamardi, he brought the Director of the Sewez Canal over to see the Temple so we had to show him round. M. Roche brought us a lovely bunch of roses & sweet peas & a large basket of vegetables from his garden, wasn't it kind of him

We shall be keeping Christmas as usual as Amice & Truda will be back, I do not know if we will have any guests. Amice did invite D^r Junker, but I do not expect he will be able to come, it is such a long journey. He has promised to come some time to collate for us, but that will be at the end of the

We have bought Baliana

had to order an extra lot. I get
a hundred at a time & that fairly

Lots of love to you both.
