Dear Father.

I was so pleased to have a letter from you, but not so pleased with the enclosure the Income Tax people have evidently taken no notice yet of my letter. I am not answering the demand note as from your letter you ^{evidently} did not think it necessary, but should they send another before adjusting the assessment will you send them a note saying I am waiting an answer to my letter of the ? (date in cash box) in which I explained that the salary I received last year is not a fixed one - & that I am employed by the month & my income varies each year according to the length of time I am employed. my letter contained full details & when the matter is adjusted I will send a cheque immediately etc -

In the paper of particulars of assessment they have put £300 employment. £11-10, War loan & deposit interest, Deduction for earned income & personal

allowance £148-10. Amount chargeable^{sic} - £151-10.

Tax due Jan £14-4.

" " July 4-14-9 -

It is all very complicated -

We are expecting a visit from our nice Professor Newberry tomorrow for two days. It will be delightful having him, he is such a dear. He is the one who took Amice & I to the Continental Hotel for a binge when we were in Cairo.

Our lessons still progress. at the last one I gave Sheikh Sarbit the picture of the Masonic School. He was very much impressed & could hardly believe all that large building was just school. we have started dictation. he makes noises & we try to write the ~~sounds~~ signs that the noises are supposed to represent. its^{sic} very exciting. he is certainly a very good Teacher. it is very different being taught by someone who is so used to teaching. they realize that one knows nothing

of the subject & are careful to explain by easy stages, where as some one not used to teaching is unable to realize one's state of complete ignorance. It is a pity this man does not know English it would be so helpful if he could teach us grammar. Nannie is hopeless at that. she muddles her Tenses, first she says its something that has happened. or it may be happening all the time or it has'nt^{sic} begun to happen - & we get nearly frantic.

We went for a picnic to-day up one of the wadys, we went as far as we could in Joey, then had our lunch, & after a short rest we started to climb up to some ancient quarries where they cut out the blocks of limestone for the buildings. They have been inhabited by many generations of bats - so after some exploring we were rather glad to get out to the fresh air again - bats are very whiffy -

Tell Pat I wish she would take a snap shot of the garage for me. I am simply bursting

with curiosity. it sounds so exciting. glad
the men have been so nice. wont Lady
Godiva feel proud of her new home.

There isn't any very exciting news
this time, we have been fairly quiet since
Lady Lorraine's visit.

Lots of love to you both & all
kind friends.

Your affectionate daughter
Myrtle.

P.S. I am enclosing the Income Tax paper in
case it may be necessary to return it to the
collector as in-correct
